

Students, Parents, Teachers-Together for Success

How do we make this happen?

Make school attendance a priority!

Our Fourth Grade Classroom

In our classroom, we support reading and math on a daily basis by practicing reading fluency and math facts. Our goals are for students to meet their 25 book goal for the year and master multiplication/division facts (0-12).

Some of our key connections with families will be:

- Provide parents with Activity Packets to use at home for reading and math fact fluency.
- Our class web page has links to family friendly websites that extend reading and math skills.
- Provide daily homework that supports reading fluency and math activities.
- Conduct Success Team Meetings to discuss your child's progress.

Teacher Signature/Date:

At Home

Families at NFE provided ideas to support their child's learning at home. Check out these great ideas!

- Use Friday Folder information to discuss learning for the week.
- Check out learning activities from the Parent Center to support vocabulary, math, and reading.
- Participate in homework by checking my child's work and agenda.
- Read daily with my child.
- Attend parent-teacher conferences and Success Team meetings.
- Check the class web page and newsletter for at home learning ideas.

To help my child at home, I will:

North Fayette Students

Students at North Fayette shared ideas about how they can succeed at school and reach their learning goals.

- Review notes and work from day's lessons.
- Read every day.
- Practice my math facts.
- Take responsibility for my learning.
- Review Friday Folder with parents.
- Check IC for missing grades.

To reach my learning goals, I will:
