

Elementary Math Curriculum/Instructional Resource Adoption

Fayette County Schools is looking for the perfect curriculum resource that will accelerate our students' mathematics content knowledge and promote inquiry and engagement, all while using 21st Century technology. Our plans are to go through a thorough textbook adoption during the 2022-2023 academic year, for implementation during the 2023-2024 academic year. Curriculum materials/textbooks need to be fully aligned to [Georgia's K-5 Mathematics Standards](#) and incorporate Standards for Mathematical Practices, effective teaching practices, real world problem-solving strategies, and hands-on learning experiences, as well as promote readiness for College and Career life.

Please complete the [vendor solicitation survey](#), by October 14, 2022, if your company would like to be a respondent for this project.

Proposed Purchasing and Implementation Timeline

Process	Anticipated Timeline
