Comprehensive Needs Assessment
2023 - 2024 School Report

Fayette County
North Fayette Elementary School
1.1 Identification of Team

The comprehensive needs assessment team consists of people who are responsible for working collaboratively throughout the needs assessment process. Ideal team members possess knowledge of programs, the capacity to plan and implement the needs assessment, and the ability to ensure stakeholder involvement. A required team member’s name may be duplicated when multiple roles are performed by the same person. Documentation of team member involvement must be maintained by the LEA. Watch the Planning and Preparation webinar for additional information and guidance.

1. PLANNING AND PREPARATION

1.2 Identification of Stakeholders

Stakeholders are those individuals with valuable experiences and perspective who will provide the team with important input, feedback, and guidance. Required stakeholders must be engaged in the process to meet the requirements of participating federal programs. Documentation of stakeholder involvement must be maintained by the LEA. Watch the Planning and Preparation webinar for additional information and guidance.

How will the team ensure that stakeholders, and in particular parents and/or guardians, were able to provide meaningful input into the needs assessment process?

All stakeholders will be invited to provide meaningful feedback throughout the CNA process through emails, surveys, and collaborative team discussions. A Stakeholders’ meeting will be held in May and emailed to all parents and stakeholders inviting them to attend and provide feedback and insight.
2. DATA COLLECTION ANALYSIS

2.1 Coherent Instructional System

Analyze the LEA’s data (including sections 2.6) and answer the guiding questions to determine existing trends and patterns that support the identification of instructional needs. Complete a data-informed self-rating for each Georgia School Performance Standard (GSPS). See the Coherent Instructional System webinar for additional information and guidance.

### Curriculum Standard 2 - Designs curriculum documents and aligns resources with the intended rigor of the required standards

<table>
<thead>
<tr>
<th>Level</th>
<th>Description</th>
<th>Example</th>
</tr>
</thead>
</table>
| 1. Exemplary | Curriculum documents (e.g., lesson plans, unit plans, performance tasks, curriculum maps, scope, and sequence documents, guides) that are aligned with the intended rigor of the required standards are the products of a systematic, collaborative process.  
These curriculum documents and resources are used and continuously revised by teachers and support staff to ensure an alignment with the intended, taught, and tested standards. | ✔️      |
| 2. Operational | Curriculum documents (e.g., lesson plans, unit plans, performance tasks, curriculum maps, scope and sequence documents, guides) have been designed, and resources are aligned with the intended rigor of the required standards.  
These curriculum documents and resources guide the work of teachers and instructional support staff. | ✔️      |
| 3. Emerging | Curriculum documents and resources exist, but they are not complete in all content areas or grade levels or lack the intended rigor of the required standards. | ✔️      |
| 4. Not Evident | Few, if any, curriculum documents and resources exist to support the implementation of the intended rigor of the required standards. | ✔️      |

### Instruction Standard 1 - Provides a supportive and well-managed environment conducive to learning

<table>

</table>
| 1. Exemplary | A supportive and well-managed environment conducive to learning is evident throughout the school.  
Students consistently stay on-task and take responsibility for their own actions. | ✔️      |
| 2. Operational | A supportive and well-managed environment conducive to learning is evident in most classrooms. | ✔️      |
| 3. Emerging | A supportive and well-managed environment conducive to learning is evident in some classrooms. | ✔️      |
| 4. Not Evident | A supportive and well-managed environment conducive to learning is evident in few, if any, classrooms. | ✔️      |
### Instruction Standard 2 - Creates an academically challenging learning environment

### Instruction Standard 7 - Provides feedback to students on their performance on the standards or learning targets

<table>
<thead>
<tr>
<th>Level</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. Exemplary</strong></td>
<td>Nearly all teachers use the language of the standards or learning targets to provide students with specific, timely, descriptive feedback on their performance. Nearly all teachers systematically elicit diagnostic information from individual students regarding their understanding of the standards or learning targets.</td>

### Instruction Standard 9 - Provides timely, systematic, data-driven interventions

<table>
<thead>
<tr>
<th>Level</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. Exemplary</strong></td>
<td>Nearly all students are provided timely, systematic, data-driven interventions to support their learning needs. Interventions are designed to meet the needs of each student. The effectiveness of those interventions is consistently monitored and adjustments are made.</td>
</tr>
<tr>
<td><strong>2. Operational</strong></td>
<td>Most students are provided timely, systematic, data-driven interventions to support their learning needs.</td>
</tr>

<tr>
<th>Level</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Exemplary</strong></td>
<td>Teachers consistently use common assessments aligned with the required standards in nearly all content areas, grade levels, or both for diagnostic, summative, and formative purposes. The data from the common assessments are analyzed down to the item level, and the results are used to inform instruction and improve teacher practices.</td>
</tr>
<tr>
<td><strong>Operational</strong></td>
<td>Teachers use common assessments aligned with the required standards in most content areas to monitor student progress, inform instruction, and improve teacher practices.</td>

<tbody>
<tr>
<td><strong>Exemplary</strong></td>
<td>Teachers extensively use a systematic, collaborative process to analyze assessment results. Instruction is consistently adjusted based on the analysis of assessment results across all content areas, grade levels, or both.</td>
</tr>
<tr>
<td><strong>Operational</strong></td>
<td>Teachers regularly use a collaborative process to analyze assessment results. Instruction is routinely adjusted based on the analysis of assessment results.</td>
</tr>
<tr>
<td><strong>Emerging</strong></td>
<td>Teachers occasionally use a collaborative process to analyze assessment results. Instruction is sometimes adjusted based on the analysis of assessment results.</td>

Effective Leadership Data

| Leadership Standard 3 - Uses systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices |
|---|---|
| **1. Exemplary** | The principal and other school leaders continually use systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices. The principal and other school leaders have a comprehensive knowledge and understanding of the best practices for curriculum, assessment, instruction, and professional learning. |
| **2. Operational** | The principal and other school leaders often use systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices. ✔ |
| **3. Emerging** | The principal and other school leaders occasionally use systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices. |
| **4. Not Evident** | The principal and other school leaders rarely, if ever, use systems to ensure effective implementation of curriculum, assessment, instruction, and professional learning practices. |

| Leadership Standard 4 - Uses processes to systematically analyze data to improve student achievement |
|---|---|
| **1. Exemplary** | Extensive, comprehensive processes, including root cause analysis, are used consistently to analyze data (e.g., multiple sources of data: classroom, grade level, departmental, and subgroup, perception data) to improve student achievement. |
| **2. Operational** | Numerous processes are used frequently to analyze data (e.g., multiple sources of data: classroom, grade level, departmental, and subgroup, perception data) to improve student achievement. ✔ |
| **3. Emerging** | Some processes are in place and used occasionally to analyze data to improve student achievement. |
| **4. Not Evident** | Few, if any, processes are in place to analyze data to improve student achievement. |

| Leadership Standard 5 - Builds leadership capacity through shared decision-making and problem-solving |
|---|---|
| **1. Exemplary** | Extensive structures exist for staff to engage in shared decision-making and problem-solving and to build their leadership capacities. Administrators collaborate consistently with staff members to gather input. |
| **2. Operational** | Numerous structures exist for staff to engage in shared decision-making and problem-solving and to build their leadership capacities. ✔ |
| **3. Emerging** | Some structures exist for staff to engage in shared decision-making, problem-solving, or both. |
| **4. Not Evident** | Few, if any, structures exist for staff to engage in shared decision-making or problem-solving. |
### Leadership Standard 6 - Establishes and supports a data-driven school leadership team that is focused on student learning

<table>
<thead>
<tr>
<th>Level</th>
<th>Description</th>
</tr>

<tbody>
<tr>
<td>1. Exemplary</td>
<td>Monitoring the performance of teachers and other staff through observations, surveys, data, and documentation is consistent and comprehensive, resulting in highly accurate performance evaluations. A comprehensive system is in place to provide teachers and staff with ongoing, accurate, timely, detailed, descriptive feedback related to their performance. Administrators use the evaluation process to identify role models, teacher leaders, or both.</td>
</tr>
<tr>
<td>2. Operational</td>
<td>Monitoring the performance of teachers and other staff regularly occurs using data or documentation, generally resulting in accurate performance evaluations. Teachers and staff receive accurate, timely, descriptive feedback related to their performance.</td>

| Planning and Organization Standard 6 - Uses protocols to maintain the school campus and equipment providing a safe, clean, and inviting learning environment |
|---|---|
| **1. Exemplary** | Protocols (e.g., safety drills, tornado drills, inclement weather plans, current crisis plan, school-wide safety plan, maintenance protocols, facility-use protocols, functional custodial schedules) are used extensively to maintain the school campus and equipment providing a safe, clean, and inviting learning environment.

A proactive maintenance process is in place, and repairs are completed in a satisfactory and timely manner, when needed. |
| **2. Operational** | Protocols (e.g., safety drills, tornado drills, inclement weather plans, current crisis plan, school-wide safety plan, maintenance protocols, facility-use protocols, functional custodial schedules) are used to maintain the school campus and equipment providing a safe, clean, and inviting learning environment.

The school and campus are clean, well-maintained, inviting, and safe. | ✔ |
| **3. Emerging** | Protocols are sometimes used to maintain the school campus and equipment.

The school and campus are partially clean, maintained, and inviting, but some safety issues exist. |
| **4. Not Evident** | Protocols do not exist or are rarely, if ever, used to maintain the school campus and equipment.

Professional Learning Standard 2 - Establishes a culture of collaboration among administrators and staff to enhance individual and collective performance

| 1. Exemplary | Administrators and staff, as a foundational practice, consistently collaborate to support leadership and personal accountability and to enhance individual and collective performance (e.g., construct knowledge, acquire skills, refine practice, provide feedback). Teachers conduct action research and assume ownership of professional learning processes. |
| 2. Operational | Administrators and staff routinely collaborate to improve individual and collective performance (e.g., construct knowledge, acquire skills, refine practice, provide feedback). | ✓ |
| 3. Emerging | Administrators and staff sometimes collaborate to improve individual and collective performance. |
| 4. Not Evident | Administrators and staff rarely collaborate to improve individual and collective performance. |

Professional Learning Standard 3 - Defines expectations for implementing professional learning

| 1. Exemplary | Administrators, teacher leaders, or both consistently define expectations for the implementation of professional learning, including details regarding the stages of implementation and how monitoring will occur as implementation progresses. |
| 2. Operational | Administrators, teacher leaders, or both regularly define expectations for the implementation of professional learning. | ✓ |

<td><strong>What perception data did you use?</strong></td>
<td>Examples: student perceptions about school climate issues (health survey, violence, prejudice, bullying, etc.); student/parent perceptions about the effectiveness of programs or interventions; student understanding of relationship of school to career or has an academic plan. The team utilized various data tools that includes: CCRPI School Climate Surveys, Title I surveys, Spotlight Data, Monthly PBIS data, previous TKES evaluations, District Reading and Math assessments, MTSS notes, and leadership notes.</td>
</tr>
<tr>
<td><strong>What does the perception data tell you?</strong></td>
<td>The trends that were noticed include: consistency of collaboration within the grade levels; grade levels have worked together effectively and come up with a plan to utilize a mandatory weekly collaboration. Grade levels that have a strong collaboration need to look at their data to see how much growth of students. Utilize student data to inform and adjust instructional needs. PD is based on needs of students, teachers and leaders. While there are many structures in place and available to support the instructional program and identify needs, some processes are more mature than others. Raising student academic achievement using benchmark and Interim assessments and common formative assessments, continued work in refining progress monitoring and MTSS process are patterns to continue to utilize.</td>
</tr>
<tr>
<td><strong>What process data did you use?</strong></td>
<td>Examples: student participation in school activities, sports, clubs, arts; student participation in special programs such as peer mediation, counseling, skills conferences; parent/student participation in events such as college information meetings and parent workshops. Weekly Dolphin Dish Emails, CCRPI School Climate Survey, Title I Surveys, Principals weekly Newsletter, Faculty Meetings, and Leadership Agendas, In-person data meetings, School Council meetings, Teacher-parent conferences, Stakeholder’s meetings.</td>
</tr>
<tr>
<td><strong>What does the process data tell you?</strong></td>
<td>Opportunity for teams to have time for vertical planning. Opportunities for professional development in areas of needs. Systematic school-wide safety and discipline plan. Teachers also collaborate in providing ongoing support, fostering innovation/flexibility, deconstructing standards, and implementing effective instructional strategies. Multiple teams support &amp; drive vision and direction of NFES.</td>

</tr>
<tr>
<td>----------------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>What does your achievement data tell you?</strong></td>
<td>Our achievement data tells us that there is a need for Teachers to focus on deconstructing standards and modeling rigor within the standards. Communication among some grade levels with parents needs strengthening. There is a need for teachers to focus on implementing the Instructional Framework and continuing to use common formative assessments. Professional learning on differentiation of instruction is needed to improve student achievement. Through coaching, teachers learn to reflect on the effectiveness of their teaching.</td>
</tr>
<tr>
<td><strong>What demographic data did you use?</strong></td>
<td>Infinite Campus School Data Profile, GMAS Data by subgroups, Free and Reduced Lunch Data, District Assessment Data by subgroups.</td>
</tr>
<tr>
<td><strong>What does the demographic data tell you?</strong></td>
<td>The data tells us that we need to continue to effectively implement common formative assessments in our Professional Learning Communities to inform high impact instructional strategies for students. The data also tell us to deconstruct the standards and implement instructional framework. The data also tells us that we need to focus on differentiated instruction with rigor in the standards.</td>

NEEDS IDENTIFICATION AND ROOT CAUSE ANALYSIS

3. NEEDS IDENTIFICATION AND ROOT CAUSE ANALYSIS

3.1 Strengths and Challenges Based on Trends and Patterns

Read the trends and patterns summaries from each section of the data analysis process. Use the information in these summaries to complete 3.2 and 3.3. Using the summaries in 3.1 and other local data, describe the strengths and challenges or answer the guiding questions for each program. Include strengths and challenges related to: a) general program implementation, and b) students and adults involved in or affected by the program. Focus on strengths and challenges that will assist in the identification of needs during 3.2. Watch the Identifying Need webinar for additional information and guidance.

Strengths and Challenges Based on Trends and Patterns

<table>
<thead>
<tr>
<th>Coherent Instructional: Summarize the coherent instructional system trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?</th>
<th>The trends show that grade levels need to continue strengthening their PLC process. Grade levels that have a strong collaboration need to review their data to see how much growth students made. Administrators, teachers and support staff need to utilize student data to inform and adjust instructional needs. Teachers also need to develop a true understanding of deconstructing the standards, differentiation of instruction and implementing the instructional framework. We will continue raising student academic achievement by using benchmark and common formative assessments. In addition we will continue to work in refining progress monitoring and MTSS processes.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Effective Leadership: Summarize the effective leadership trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?</td>
<td>We will continue to have opportunities for teams to have time for vertical planning, opportunities for professional development in areas of needs, and a Systematic school-wide safety and discipline plan. Teachers will also collaborate in providing ongoing support in the instructional framework, effective instructional strategies, and the use of common formative assessments to enhance student achievement.</td>
</tr>
<tr>
<td>Professional Capacity: Summarize the professional capacity trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?</td>
<td>Our trends include the following: Communication of some teachers with parents and faculty members could be stronger. Collaboration is growing among the teachers with the utilization of PLC. The use of differentiation of instruction continues to be a primary focus within the classroom. Professional learning needs to be meaningful and job embedded in order to improve student achievement. Through coaching, teachers learn to reflect on the effectiveness of their instruction. Research reveals that ongoing, job embedded teacher training is the critical factor in making a difference in student learning.</td>
</tr>
</tbody>
</table>
**Family and Community Engagement:** Summarize the family and community engagement trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?

Trends include: Parents are disconnected. There is a need for more community sponsors. We need to utilize teachers to support parents. It is often difficult for parents/families to be engaged in school activities. The continued use of dedicated family support personnel such as counselors, family engagement coordinators, and social workers, the importance placed on community partnerships, and the use of specially designed supports and experiences for students and their families all lead to the identification of student, teacher, and leader needs.

**Supportive Learning Environment:** Summarize the supportive learning environment trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?

There is a lack of a cohesive behavior plan. There needs to be clear defined steps for implementing the NFES vision/mission. We need to continue to support differentiated instruction. We need to continue maintaining order and safety in our school environment. Teachers, students and parents need to feel safe at the school.

**Demographic and Financial:** Summarize the demographic and financial trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?

Trends and patterns observed by the team are: Class sizes continue to be overwhelming, there is an inability to retain qualified teachers, there is a wide variance in the academic needs of students, and we have a high number of students in poverty, which translates into a large percentage of students receiving free or reduced lunch.

**Student Achievement:** Summarize the student achievement trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?

We will implement strategies to ensure rigor and differentiated instruction in our classroom. We will provide opportunities for our teachers for collaboration training with time to implement strategies. NFES will focus on test genre, Depth of Knowledge, and rigor of instruction with the overall goal of increasing our student achievement within a designated time frame. Also as NFES staff and leadership, we will focus on data to help drive instruction. Teachers will be given the time to meet collaboratively and review data and plan effective strategies to support and enrich student learning.
IDEA – Special Education, Economically Disadvantaged Children, and English Learners.

Using the summaries in 3.1 and other local data, describe the strengths and challenges or answer the guiding questions for each program. ## 3. NEEDS IDENTIFICATION AND ROOT CAUSE ANALYSIS

### 3.3 Root Cause Analysis

Select the top 2-4 overarching needs from 3.2. Conduct a separate root cause analysis (RCA) for each need. Any RCA tools and resources can be used, but suggestions are available as part of the [Identifying Need webinar](#). After describing the RCA process, complete a table for each selected overarching need.

<tr>
<td>1. In developing this plan, briefly describe how the school sought advice from individuals (teachers, staff, other school leaders, paraprofessionals, specialized instructional support personnel, parents, community partners, and other stakeholders).</td>
<td>In developing this plan, a team of School and county administrators, teachers, stakeholders, parents and community business and faith-based organizations gathered information to support the writing of this plan. The school leadership team was instrumental in analyzing and evaluating data for the Comprehensive Needs Assessments. Stakeholders meeting was held to allow all parties the opportunity to provide feedback and additional information for the School Improvement plan.</td>
</tr>
<tr>
<td>2. Describe how the school will ensure that low-income and minority children enrolled in the Title I school are not served at disproportionate rates by ineffective, out-of-field, or inexperienced teachers.</td>
<td>All NFES administrators and teachers are professionally qualified. All administrators, teachers, and paraprofessionals hold clear, renewable, Georgia certificates and meet professionally qualified criteria to maintain these certificates as required by the State of Georgia. The quality of the staff is further reflected in the educational degrees of North Fayette Elementary School’s teachers and their years of experience.</td>
</tr>
<tr>
<td>3. Provide a general description of the Title I instructional program being implemented at this Title I school. Specifically define the subject areas to be addressed and the instructional strategies/methodologies to be employed to address the identified needs of the most academically at-risk students in the school. Please include services to be provided for students living in local institutions for neglected or delinquent children (if applicable).</td>
<td>The Title I program will take place during regular school hours weekly. The 5 Title I teachers will work with homeroom teachers and our Early Intervention Program to identify students who are eligible to receive Title I services in Reading and Math based on Milestone, as well as other formative and informal assessment data. The Title I Contact will coordinate tutoring services for Title I tutors to work with a small group of students in need of academic intervention or acceleration. NFES will prioritize students in order to serve the most in need of support based on GMAS scores, Dibels scores, other relevant data and teacher recommendation. After school interventions will also be provided to students identified. Virtual tutoring will also provide homework support for students. Professional development and support will be provided to instructional staff to increase curriculum knowledge and provide guidance on instructional best practices. These programs with target students on, above, and below level to remediate and accelerate learning in areas of Math and Reading. The Parent liaison will support parents in engaging in and supporting their child/children’s academic progress at school by providing workshops virtually, within the community as well as in the school focusing on Read, Writing, Math, and home support. Lunch and Learn interventions will be utilized to support learning with students in all grades with support from Title I teachers and paras.</td>
</tr>
<tr>
<td>4. If applicable, provide a description of how teachers, in consultation with parents, administrators, and pupil services personnel, will identify eligible children most in need of services in Title I targeted assistance schools/programs. Please include a description of how the school will develop and implement multiple (a minimum of 2) objective, academic-based performance criteria to rank students for service. Also include a description of the measurable scale (point system) that uses the objective criteria to rank all students.</td>

<tr>
<td><strong>7. Describe how the school will support efforts to reduce the overuse of discipline practices that remove students from the classroom, specifically addressing the effects on all subgroups of students.</strong></td>
<td>NFES implemented PBIS to improve discipline and reduce the amount of time students are removed from the classroom. As a result, we expect to improve in this area, which will have an impact on all subgroups of students. Effective Discipline Process A Continuum of consequences is used for violating behavior expectations. Teacher interventions are provided and expectations are retaught and modeled. Students are allowed to practice the expected behavior in order to be successful. Positive Behavioral Intervention and Supports (PBIS) is an evidence-based, data-driven framework proven to reduce disciplinary incidents, increase a school's sense of safety, improve school climate, and support improved academic outcomes for ALL students. The premise of Georgia PBIS is that continual teaching combined with acknowledgement or feedback of positive student behavior will reduce unnecessary discipline and promote a climate of greater productivity, safety, and learning. What does PBIS look like at North Fayette Elementary? A small number of clear expectations are posted throughout the school. Students, teachers, and staff are able to state the expectations. Teachers continuously teach and review the expectations throughout the year. Teachers model PBIS for students. Students are rewarded for meeting expectations. There is an ongoing use of behavioral data for decision making, which we view as priority. We localize the problem by location, month, day, grade, behavior, time, and</td>

student. We set clear expectations and rules throughout the school year, and students are taught how to behave according to three behavior expectations. Teachers help students learn what the expectations "look" and "sound" like in every setting during the school day. These lessons are retaught and reinforced throughout the school year, and are a regular part of the instructional day. "Be a North Fayette Role Model" Be Respectful, Be Responsible, and Be Safe Behavior Matrix. The Behavior Matrix is a detailed description of expected behavior in each setting of the school. The matrix is posted in classrooms, around the school, and sent home. Positive recognition acknowledging and reinforcing positive behavior is the focus of PBIS. NFE students earn rewards (as determined by grade levels and classroom teachers) throughout the day for meeting the three behavior expectations. These rewards can be used toward special events, classroom level activities, or other reward items. This allows student the opportunity to receive support and learn school-wide expectations.
