

FY23 Title I Program Parent Notification of Supplemental Support Services

August 4, 2022

Dear Parents:

Congratulations! Your school has school-wide status with our Title I Program for the 2022-2023 school year! Title I provides a source of federal funding to schools throughout the country. Based on local data and demographics, Title I formulas determine the funding allocation allowing schools to provide supplemental instructional services and resources to assist students, parents, and staff in achieving local learning goals and targets. Below are a few areas of supplemental supports provided through our Title I Program.

Supplemental Program Support Services:

INSTRUCTION

Title I, Part A identifies students experiencing academic difficulties and provides timely assistance to help them meet the state's rigorous content standards. The Title I Program can fund supplemental staff such as Title I Teachers, Instructional Assistants, and Tutors to support student learning. The Title I Program can also purchase supplemental evidence-based programs, resources, technology, and supplies to support the academic achievement of students.

PARENT ENGAGEMENT

Title I, Part A, reserves at least 1% of allotted funds for parental involvement. Parental Involvement ensures that strong strategies are in place to build the capacity to involve parents/stakeholders in an effective partnership with the school and share and support high student academic achievement. The Title I Program funds supplemental staff such as Parent Liaisons, Parent Teachers, and Interpreters.

PROFESSIONAL LEARNING

Title I, Part A, reserves at least 5% of allotted funds to improve teaching and learning for students through data-driven and needs-based professional learning opportunities for teachers and staff.

You are welcome to contact your school administration team or our district Federal Programs Office regarding any questions or concerns related to our Title I Program. Thank you.
