## 2. DATA COLLECTION ANALYSIS

### 2.6 Data Analysis Questions

Analyze the LEA’s data and answer the guiding questions to determine existing trends and patterns that support the identification of demographic and financial needs. Student subgroups with a count of less than 15 are denoted by “TFS” (too few students).

<p><b>What perception data did you use?</b> [examples: student perceptions about school climate issues (health survey, violence, prejudice, blying, etc.); student/parent perceptions about the effectiveness of programs or interventions; student understanding of relationship of school to career or has an academic plan]</p>	<p>Fayette County High School uses the GA school climate survey, End of Year Teacher Survey, Leadership/PTSCO/School Council meetings, in addition to PBIS student surveys.</p>
--	---

<p><b>What does the perception data tell you?</b> (perception data can describe people’s knowledge, attitudes, beliefs, perceptions, competencies; perception data can also answer the question “What do people think they know, believe, or can do?”)</p>	<p>644 students ( brick and mortar), completed the Student Wellness Survey for the 2020-21 SY regarding the climate perception and culture of FCHS. Additionally, FHCS has a 5 star climate rating on the school's CCRPI. In the past. items students shared concerns about on the GA Health Survey were with mental health and wellness, specifically with relationships, school work, and self-awareness. The school continues to pursue avenues for students to share and discuss their feelings/emotions with school counselors and trusted faculty within the building. The school also used data from our PBIS program to determine trustworthiness, relationships, and perceptions and interactions between peers and faculty and staff that are healthy and supportive. School Counselors are also involved with SEL.</p>
--	---

<p><b>What process data did you use?</b> (examples: student participation in school activities, sports, clubs, arts; student participation in special programs such as peer mediation, counseling, skills conferences; parent/student participation in events such as college information meetings and parent workshops)</p>	<p>Fayette County High School used the following information: TKES/LKES, PBIS/SWIS, IC behavior reports, FCHS Safety Plan, FCBOE District Safety Plan, Professional Learning sessions ( calendar), Master Schedule, RTI, Graduation Coach, Teacher and Peer mentors.</p>
--	--

<p><b>What does the process data tell you?</b> (process data describes the way programs are conducted; provides evidence of participant involvement in programs; answers the question “What did you do for whom?”)</p>	<p>The process data describes the areas of growth that should be developed and supported to meet the needs of all stakeholders at FCHS, academically and with overall well being. TKES/LKES assist with determine what professional learning and development should be in place, PBIS/SWIS, along with IC behavior reports share areas of which our students may suffer from mental/emotions challenges that are and will continue to negatively impact their learning in the school. Additional data processes, such as, our safety plan should create assurance that students are able to thrive in a safe environment,</p>
--	---

	<p>our RTI process should identify students who may have academic, social/emotional factors that impede their learning, and our School Counselors, Graduation Coach along with Teacher and Peer mentors should yield strategies and interventions to create an atmosphere where students are engaged in their learning while being socially and emotionally healthy.</p>
--	--

<p><b>What achievement data did you use?</b></p>	<p>Fayette County High School's achievement data was derived from End of Course assessments, ( local) common assessments, Advanced Placement assessments, SRI ( specifically with 9th/10th grader data).</p>
--	--

<p><b>What does your achievement data tell you?</b></p>	<p>Specific data disclosed the following:            FCCHS has seen growth in our 9th Literature with slight dips in our American Lit Geometry, Economics, Biology, and Physical Science, however, more instructional attention should be paid to Algebra I and US History regarding the change in overall student achievement from the Spring 2018 to Spring 2019 assessments. One should note that although there are areas of content growth, development of action plans are continuous and developing to address the professional learning needs of the teachers and engagement and application from students. Additional achievement data from common assessments, AP testing, and SRI ( Scholastic Reading Inventory) suggest dialogue and planning that will address higher order thinking, learning processes, lexile, writing, and creative thinking for our students. Additionally, FCCHS did not have data from the 2019-2020 Sprint EOCs due to COVID 19. FCCHS anticipates growth with the Spring 2020-21 EOC Milestones for Alg I, Biology, American Lit, and US History.</p>
---	--

<p><b>What demographic data did you use?</b></p>	<p>Fayette County reviews demographic data from Infinite Campus Demographic reports, FTE reports, attendance/student enrollment, GA's SLDS ( Student Longitudinal Data System), Free and Reduce Lunch reports, and our ESOL population.</p>
--	---

<p><b>What does the demographic data tell you?</b></p>	<p>The data interprets a narrative that suggest FCCHS has a sustained core population with fluctuating and inconsistent transient students who move in and out of the school during the school year. Much of the aforementioned description can be found when looking at our FTE reports, which has shown a gradual but steady increase in our ECS ( Exceptional Children Services) program, in addition to our attendance/student enrollment, as well as, our free and reduced lunch. FCCHS has a 40% population of students on free and reduced lunch, which includes a growing population of ESOL students.</p>

##### Strengths and Challenges Based on Trends and Patterns

<p><b>Coherent Instructional:</b> Summarize the coherent instructional system trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?</p>	<p>Fayette County High School's has many strengths, however, there are areas of challenge and growth that FCHS has faced this year and in previous years. Most recently, the areas that we would highlight are in the areas of:                  Strengthening common formative/ summative instructions/assignments/assessments through professional learning/planning, data review to drive and create instruction, the learning environment of students to actively engage them in ownership of their learning, and continued active engagement in relationship building with all stakeholders. It is agreed that professional development in instructional practices should be addressed with a plan that outlines data reviews that are shared and used to drive discussion, expectation, and best practice. Along with the PD, teachers should have opportunities to discuss, develop, and work with students regarding student participation and engagement of their learning with guided support through PD and FCHS Administration. Lastly, the school will continue to address and design initiatives, and programming that create a warm, supportive, communicative, and positive environment for all stakeholders.</p>
