

Students, Parents, Teachers-Together for Success

How do we make this happen?

Make school attendance a priority!

Our Second Grade Classroom

In our classroom, we support reading and math on a daily basis by practicing reading fluency and comprehension. Our goal is for students to achieve a lexile score of 450-620 by the end of their second grade year.

Some of our key connections with families will be:

- Our class web page has links to family friendly websites that extend reading and math skills.
- Provide newsletter that give parents weekly update about what students are learning.
- Provide daily homework that supports reading fluency and math activities.
- Conduct Success Team Meetings to discuss your child's progress.

Teacher Signature/Date:

At Home

Families at NFE provided ideas to support their child's learning at home. Check out these great ideas!

- Use Friday Folder information to discuss learning for the week.
- Check out learning activities from the Parent Center to support vocabulary, math, and sight words.
- Participate by checking my child's homework.
- Read daily with my child.
- Attend parent-teacher conferences and Success Team meetings.
- Use Activity Packets regularly.
- Check the class web page and newsletter for at home learning ideas.

To help my child at home, I will:

North Fayette Students

Students at North Fayette shared ideas about how they can succeed at school and reach their learning goals.

- Practice *Ready, Responsible, Respectful* behavior.
- Read every day.
- Bring home my Friday Folder and go over my work with my family.
- Have fun playing math games at home.
- Complete homework everyday

To reach my learning goals, I will:
