

# Blackboard Tips for parents with multiple children

When you log into Blackboard as a parent, you have access to information from the teachers of each of your children. (Keep in mind that not all schools have begun using Blackboard.)

To view each child's classes, scroll to the bottom of the home screen to find the "Parent Gateway". You will be able to click OBSERVE for each of your children. This will display the classes that your child is enrolled in. To see information for another child, just go back to your home screen and click OBSERVE next to their name.
