Positive and effective parent-school communication benefit the school, child, and the parents. Parents also benefit from being involved in their children's education by getting ideas from school on how to help and support their children, and by learning more about the school's academic programs and how it works. The journey of school is not just for educators and students, it's about parents, too! Here you will find resources and articles to support your child's success in school.

The 2017 volleyball season has ended with both the 7th and 8th grade Lady Eagles achieving continued improvement throughout the season. Both teams took pride in wearing their new RED uniforms while putting forward their best efforts. Next year promises to be another exciting season with the return of some very talented players looking to make an impact. We will miss our current 8th grade players as they move on to represent Sandy Creek next year; we wish them the very best! Thanks to Coach Thacker and Coach Jackson for their dedication and hard work with the girls!!
