Is a STEM and **Parent Power** initiative designed to expose parents, students and other community stakeholders to educational technology resources that we use in the classroom. Many of these tools have practical applications beyond the classroom and can teach our students workforce development skills. For the 2018 - 2019 school year, we'll leverage the **Flexible Learning Center** to host technology sessions, each session will last an hour on the second Saturday of every month. We will provide light refreshments and request participants to make a charitable donation so we can continue to offer Tech Saturdays throughout the school year.

Leadership Word of the Month for November

Responsibility - Taking care of one's self and others; to carry out a duty or task carefully and thoroughly.

Leadership Trait of the week: November 5th – November 9th

No Excuses – not letting things get in the way of your success; not blaming others for your circumstances

Nyla Battle

Student of the Week

Making no excuses and not letting things get in the way of success is a great trait for all. This week's student of the week takes responsibility for her actions. She strives to do her best in all she says and does. This student perseveres and rises to the occasion of the task set before her. This week's student of the week is **Nyla Battle**.

Parents benefit from being involved in their children's education by getting ideas on how to help support their children, learning about the school's academic programs and how those programs work. The journey of school is not just for educators and students, it's about parents, too! The **Parent Power** segment is dedicated to sharing articles that support your child's success in school.
