“Tech Saturday” is a **STEM** and **Parent Power** initiative designed to expose parents, students and other community stakeholders to educational technology resources that we use in the classroom. Many of these tools have practical applications beyond the classroom and can teach our students workforce development skills. For the 2018 - 2019 school year, we’ll leverage the *Flexible Learning Center* to host technology sessions. Each session will last an hour on the second Saturday of every month. We will provide light refreshments and request participants to make a charitable donation so we can continue to offer Tech Saturdays throughout the school year.

Leadership Word of the Month for January

Trust – belief that someone is reliable, good, honest and sincere

Leadership Trait of the week: January 21 – January 25

Dependable – trustworthy and reliable

Student of the Week

This student is a young man whose yes means yes and his no means no. In other words if he says that he will do something you can mark it off of your list because he is for sure going to do it. He is a high-character guy who fully commits to whatever he is doing. He's that way on the football field, toward his friends and toward his academic pursuits. He is trust-worthy and reliable. He is the same person no matter what kind of day he may be having. That says a lot about a young man. It says that he's dependable. He's the kind of guy that you really want to be your friend because he is a guy you can count on to be there for you no matter what. Health and P.E. student of the week is **Cale Roberts**

Parents benefit from being involved in their children's education by getting ideas on how to help support their children, learning about the school's academic programs and how those programs work. The journey of school is not just for educators and students, it's about parents, too! The **Parent Power** segment is dedicated to sharing articles that support your child's success in school.
