## MESSAGE FROM THE PRINCIPAL

Thank you everyone for your patience, positive attitudes, and flexibility. We have had a great school opening this week even though we've had to smooth several bumps in the road. Look for more news to come in our weekly communication through Schoology starting next week.

As we experience people within the community and school who are asymptomatic for COVID-19, we have found that we need to address testing. If a student, faculty member or family member within the home goes to be tested for COVID-19 due to symptoms, please do not return to school until your results have come back negative. If you return to school after testing and found to be positive after 4-5 days and not tell anyone you were tested, we have to start contact tracing and quarantining those who are identified as having been exposed to the person tested. So please remember, when a person gets tested, they need to self-quarantine immediately until they get their test results.
