

AP Computer Science A Summer Assignment for 2021-2022 School Year

SUGGESTION: DO NOT WAIT TILL THE LAST DAYS OF SUMMER TO BEGIN THIS ASSIGNMENT!!!!

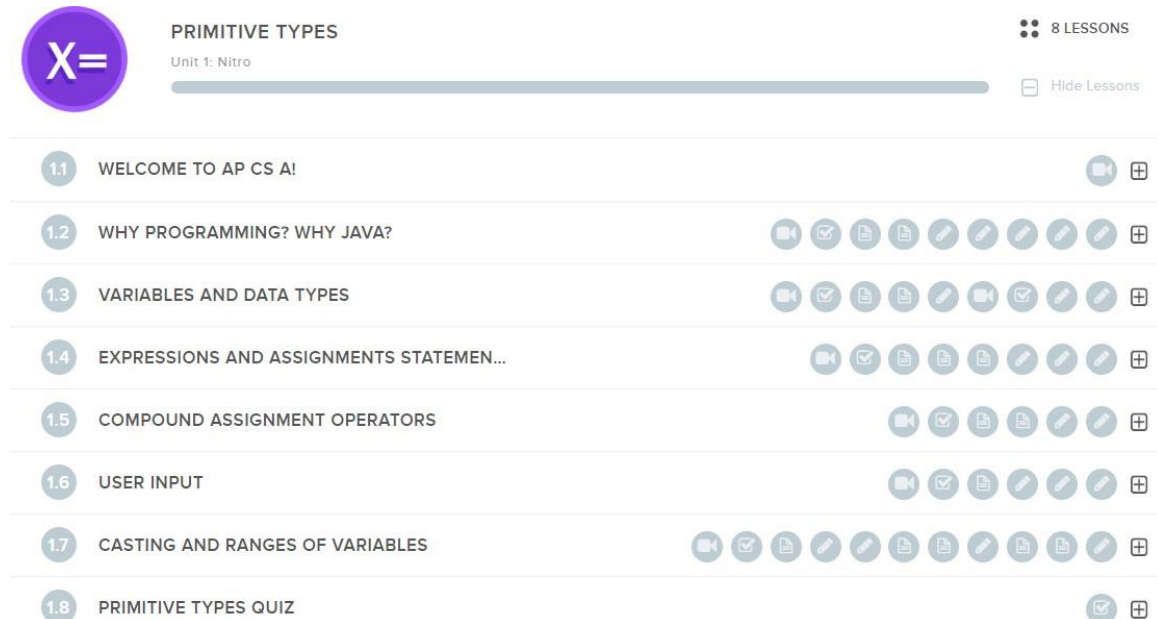

1. All questions should be sent through the Schoology classroom or through school email: bell.rob@mail.fcboe.org
2. Go to: www.codehs.com and create an account.
 - a. Click "sign up"
 - b. Click on "I am a Student".
 - c. Fill in required fields – use your school issued email address
 - d. Class code: **D2EFE**
3. Log out and re-log in to www.codehs.com
4. In the center of the screen – click "Bell -AP CS A 21-22"

5. You will be completing the first 2 units: Unit 0: Java Pretest and Unit 1: Primitive Types.
 - a. Unit 0: Java Pretest: This will see what you already know about Java and coding. ***IT IS A PRETEST!***

- b. Unit 1: Primitive Types – you will complete **all** portions(videos, quizzes, examples, and exercises) of the **8** lessons. The grey circles will change to colors as you complete the various portions of the lessons. **The videos are extremely valuable – you may want to take some notes during the videos to refer back to during the assignments.**

6. A grade/assessment will be given for completion of the assignments and to verify understanding of the material during the first few days of school.

GOOD LUCK!!! SEE YOU IN AUGUST!!!
