

STEM Scientific Research Summer Work 2019

(This work is for the STEM Biology and STEM Chemistry Classes in place of the Gifted Biology or Gifted Chemistry summer assignment.)

After observing the world around you this summer you need to come up with three questions or problems you want to answer/solve for your science/engineering project this year. **Choose one** of those topics and complete the ***Background Research form*** for that one research or engineering idea. (NOTE: Be sure to fill the correct form for either [research](#) or [engineering](#) topic.) Then complete the shorter ***Project Interest form*** for the other two ideas. A hard copy of all three forms are due in class on **Tuesday, 8-6-19**. If you want to start your experimentation before that date, you need to email your teacher (Ms. Clark (clark.mary@mail.fcboe.org) or Ms. Kozlowski (kozlowski.shelley@mail.fcboe.org) and follow their instructions.

For more information check out: [FCBOE Science Fair Site](#)

Review Science Fair Basics

On 8-7-19, [logbook](#) set up to correctly set up the logbook.

By 8-7-19, be familiar with the [documenting science fair performance sheet](#)

Review 2019 Science Fair Project Timeline

Email all questions to Ms. Kozlowski (kozlowski.shelley@mail.fcboe.org) or Ms. Clark (clark.mary@mail.fcboe.org).
