## Current admission process for students wishing to enroll in AP math course at MHS:

- Successful completion of prerequisite *Accelerated Math* courses will generally qualify student for admission to AP math course – An application must still be completed for review. Prerequisite for AP Stats is Accel G/A II or Algebra II.
- Things to Note:
  - For 4<sup>th</sup> year students on the “regular math” path, AP Stats can be taken along with Pre-Calc, but not in lieu of.
  - For 4<sup>th</sup> year students on the “accel. math” path, AP Stats can be taken along with AP Calc, but not in lieu of.
